

NITRILE GLOVES

We are a growing business in the supply and distribution of high quality nitrile gloves.

We can guarantee that our gloves have been independently tested and accredited to ensure that gloves protect people all over the world.

All of our processes are developed and engineered in house, with the safety of our customers as our main priority. We stand as the best choice for global sourcing in the highly competitive industry of safety gloves manufacturing.

LESS WASTE, MORE VALUE

By buying in bulk, you lower the cost for each unit. Frequent buying in smaller quantities can be much more expensive. Less packaging is used than typical gloves. That is reducing 1.4 tons of waste per year if you use 25 cases each month!

These Nitrile gloves offer protection against bacteria and viruses, and other unwanted substances with puncture resistant strength!

NITRILE GLOVES

Our **Nitrile Gloves** offers an excellent choice for a wide range of tasks and professions such as dentistry, medical and clinical tasks, tattooists, hairdressers, and beauticians. They are also food safe and suitable for handling fatty foods making them ideal for catering and food preparation. It is **made from 100% Synthetic Nitrile Latex**, providing safety from harsh chemicals, bacteria, and viruses. The smooth material also adds hours of comfort and a **safe options for those with latex allergy**.

Quality Standards

- Conforms to ASTM D6319 and EN455 Standards
- Manufactured under QSR (GMP), ISO 9001:2015 and ISO 13485:2016 Quality Management System

Nitrile gloves are the perfect type of gloves for many toxic tasks and works well with oil, grease, or gasoline.

Nitrile gloves have a lower resistance to friction making donning on and off, a smooth and easy task.

Nitrile gloves are an alternative solution for those with a Latex Allergy.

Nitrile gloves offer versatile protection against unwanted substances with strong puncture resistance properties.
